Japan Signs Peace August 31

Re The Waterworks Voting Monday

Apparently there is some questions in the minds of some ratepayers respecting the plans and reasons behind the Improvement vote to be held next Monday. What we say here is only our own opinion and does not pretend in any way to be the voice of the City Dads.

Last spring a preliminary survey of the Town was made respecting sewage, waterworks, sidewalks and the surfacing of some of the streets. This report, covered approximate cost of suggested improvements in all these fields, but it was only a general survey. Before any actual work could be undertaken, the details of each piece of work would have to be plotted and complete information written out before any construction contractor would undertake any work. To date the council has been unable to obtain the service of a qualified engineer to assume this detail work. Efforts are still being made.

The total of the proposed improvements is in the neighborhood of \$300,000, but each improvement will have to be undertaken on different debentures, and bylaws will have to be voted on by the ratepayers for each improvement where the total expenditure exceeds a definite set amount. Some have asked "Why with \$65,000 in the bank, is the Town voting for debentures for Waterworks improvement. We have been told by civic officials that this fund in the bank was for sidewalk and road improvement. If and when of her essential work can be done so that new sidewalks will not be broken up by installing sewer and drainage lines and so on. Then too, the Town hopes to pay for the Waterworks improvement out of the profits of the system over a period of years, and in order to do this, according to the synopsis of the advertising, the passing of a money law is necessary.

From what we can learn, no one is more disappointed than our Mayor is that work has not been started on some of these improvements. Qualified engineers just will not assume this task right now. It is possible that with the cessation of hostilities in the Pacific, some engineers may be available, and if so the Mayor says everything possible will be done to speed the work. The Council don't want to waste any money. However, they would like to get all the preparatory work done so that when an engineer and material can be obtained, no legal obstructions will stand in the way. Let's show our faith in them by giving a good healthy "Yes" to the vote on Monday, so that this necessary legality will have been completed with and the green light of safety put on this piece of work.

LIONS MEETING

Another interesting Raymond Lions meeting was held in the 2nd Ward Hall Monday August 20 with Pres. Karl Wilde in the chair.

"Oh Canada" was sung followed by prayer by Lion Don Wilde. Lion Mel Hansen introduced Signalman D. Thompson and Joe Thompson as his guests for the evening.

Lion Myron Holmes introduced as his guests, his daughter Kathleen and Mrs. Bridge. Kathleen entertained the members with a vocal solo accompanied at the piano by Mrs. Bridge. This was enjoyed so much by the members that they called for a second number. This was followed by a piano solo by Mrs. Bridge. Thank you girls come again. Community singing was then enjoyed by all present, and the meeting closed in the usual manner.

WHAT CAN YOU SPARE?

"What Can You Spare That They Can Wear" is the slogan for the National Clothing Collection for liberated countries now being organized across Canada with local committees planned in 68 cities, towns and communities in Alberta. It is announced at National Headquarters in Ottawa, Committees have already been formed at Strathmore, Macleod, Mearns, Cochrane, Claresholm, Red Deer, Lethbridge, Edmonton and Calgary. The national collection will take place from October 1-20th.

Canadians will be asked to give serviceable used clothing that they can spare from their wardrobes without replacement. This clothing will go to liberated Allied countries where distribution will be made free to war victims by UNRRA (United Nations Relief and Rehabilitation Administration). Allied countries that will benefit from this all Canadian project are Belgium, France, China, Russia, Czechoslovakia, Denmark, Greece, The Netherlands, Norway, Poland, Luxembourg and Yugoslavia. The National Clothing Collection is sponsored by the Canadian United Allied Relief Fund on behalf of UNRRA and conducted by a national committee under the chairmanship of William M. Birks, of Montreal. Montreal Senator Thomas V. C. C. of Montreal and Ottawa, Speaker of the Canadian Senate, is national vice-chairman. National Headquarters is at 130 Queen St., Ottawa.

FROST HERE SUNDAY NIGHT

A light frost, the earliest for a number of years, nipped tomatoes, cucumbers and squash in some sections of town last Sunday night or early Monday morning. Harold McBride, Vely Hoggie and Fred Pie grass all reported frost in their gardens and Fred said there was ice on the water in a trough at the slaughter house.

Mazepa and other points including High River reported frost on the same night.

Mr. and Mrs. Lee Wall of Cardston spent Thursday and Friday with relatives and friends in Raymond.

Mr. and Mrs. Harold McBride returned last Sunday from a ten days honeymoon trip spent in Rosemary, Calgary and other points.

TALENT ABROAD

A valuable member of CBC's Toronto studio staff is away from her post in the Corporation's music library this summer. Pretty Jean Gregory knows how to bring music from a keyboard as well as from the stacks, and so she's now on leave of absence as pianist with the Toronto Masquers, entertaining the Canadians stationed in England and Germany.

At about 4:30 p.m. Tuesday, August 14th, after two Atomic bombs had been dropped on Japanese cities with threats of more bombings by Allied officials, Japan surrendered, bringing to an end almost six years of war, and for China almost fifteen years of battle.

As soon as the news was flashed over the wires, business in the States came to a stand still and on Wednesday and Thursday in larger cities everything was locked up except essential places. From reports, the horn honking and shooting was dead. It is the first time in 2,500 years that she has been forced to surrender nearly 5,000 tons of waste paper removed from the streets Tuesday night and Wednesday.

Skirmishing between isolated forces of both armies continued until the first surrender news, and also tell him what to do. Now the world has a big job in the meant business, bombing attacks keeping the peace after it is won.

Local Crop Report

Harvesting is general throughout largely determining the final result. The district, and grain yields are below average, but some very satisfactory fields are being harvested water has been available the fields considering the dry summer. The are looking good and promise a good Wolf Creek Colony have reaped as yield. Approximately 30,000 acres of much as 40 bushels per acre from beets will be harvested this fall. Some of their fields of winter this is another year where the wheat, and spring wheat in most Magrath storage reservoir would cases will be a very light yield and have been a real boon to irrigated likely some rather poor grades, crops throughout the district. The Winter wheat has graded 1, 2 and 3, water shortage makes it difficult to with a slightly larger percentage of get enough water on to the land 3. Average yield has been about 25 bushels per acre. The spring wheat is looking pretty good and may average 15 bushels over the district and more than half of it No. 1.

Oats and barley in many fields are very poor. Planted last when the moisture was going out of the soil and with no more rain fall, many fields will be plowed up, some will be cut for hay, and some will make a harvest. The ridge country south of town and the country north east of town is better than the north and west part of the district.

Beets, are making good headway and water is the factor which will

CONFERENCE THIS WEEK END

Quarterly Conference will be held this week end with Elder Spencer W. Kimball of the Council of the Twelve representing the General Authorities. Following are the times for meetings:

Friday night at Magrath at 8:30
Saturday night at Raymond at 8:00 p.m. Welfare meeting

Sunday morning, 9:00 a.m. Raymond, General Priesthood meeting.

General Conference sessions at 10:30 a.m. 2 and 7 p.m. at Raymond.

CBC Washington Commentary

Pictured here on the steps of the U.S. Congress building are the three men who now represent men who report regularly from a New York newspaper. He and Rich Washington to their fellow Canadians when broadcast regularly on the CBC's Trans Canada network. On Thursday afternoon at four minutes right they are: B.T. Richardson, Bob Bowman, and Charles McE. Bowman was the first CBC war correspondent to go overseas, sailing with the first division in 1939. He has three newsmen gather much of the been heard Wednesday a gift on the material for their CBC broadcasts.

Welcome Home Party Wednesday Night

TO BLOOD DONORS

With the War at an end, our efforts are still needed. The Blood Donor Clinics will be continued and their continuance is definitely associated with your voluntary effort of giving your blood. The Red Cross hopes that donations will continue on the same scale as in the past so that there will be an adequate supply to be used in our Military Hospitals at any time, as this material is a vital factor in restoring our wounded men's health when they are forced to undergo an operation. The Red Cross wishes to thank you for your past efforts and know that you will not fail to continue.

Dr. R. C. Riley,
Provincial Chairman,
Red Cross Blood Donor Clinics.

Alex Smith underwent an operation Thursday morning at the local hospital and will be around again in a few days.

Mrs. Zella Mills Laid To Rest

Funeral services for the late Mrs. Zella Wall Mills, aged 38 years, were held in Pontifon on Monday August 20th. The remains were shipped to Raymond and on Thursday, August 23rd, a graveside service was held at the Raymond cemetery with Bishop L. L. Palmer in charge.

The congregation sang "On My Father" and Pres. Melvin T. King offered prayer, followed by "Abide With Me."

Bishop Palmer expressed the sympathy of the ward for the bereaved family and on behalf of the family thanked all who had assisted. S. I. May spoke briefly on the LDS belief in resurrection and life after death.

Bishop Palmer offered the dedicatory prayer and the service was dismissed. Christensen Bros. of Lethbridge were in charge of arrangements.

Deceased was the daughter of Mrs. Elizabeth Wall of Raymond. She met her death in an automobile accident near Pontifon, B. C. Friday of last week.

MUSICAL DESIGN

Dredging ensembles and playing for those seeking specialized training the viola for symphony, opera oring but not wishing to take their salon audiences is an old story to degree. These cover journalism, Dick Keethnas. He was busy with medical and dental assistants, and all three in his native Netherlands church secretaryship. He has come to Ottawa in 1938. Another course attracting much New he contributes to the capital interest is that covering Petroleum musical life — both in concert and engineering. In co-operation with the University of Oklahoma, a special sign For Listening, over the CBC two year course has been opened Trans-Canada network on Mondays to students who have their Jun at 6:00 p.m. EDT.

A most enjoyable evening was spent by a large crowd at the 2nd Ward Hall Wednesday evening when a "Welcome Home Banquet, Programme and Dance" was staged there by the next-of-kin and associated groups. A lovely banquet was served first where everyone did full justice to the lovely meal provided. During the banquet all the recently returned service men and women were introduced.

The program followed, and this was held in the Chapel part of the building and was as follows: "O Canada" by the congregation, followed by a presentation of corsages to the wives and mothers of the service men, and pinned on by the boys themselves.

Reading, "Tribute to Peace" by Miss Melba King.

Prayer by Patriarch O. H. Snow.

Vocal solo by Mrs. Gerald Melchin.

Reading, Mrs. Earl Nelson of Stirling.

Comic Reading by Mrs. Helen Piegrass.

Vocal solo by Mrs. Gerald Melchin.

This was followed by an hour of dancing on the Pavilion which was really enjoyable the evening being quiet and cool.

WEEKLY LETTER BACTERIAL WILT IN ALFALFA

Bacterial Wilt of Alfalfa has become a very destructive disease in the alfalfa growing areas of Alberta. It was first recognized in the United States about 20 years ago and only recently has it spread northward through Montana into Alberta. Since 1940 bacterial wilt has been found in every alfalfa field over 3 years old examined in the irrigation district of Lethbridge and Brooks, and only recently has it spread northward through Montana into Alberta. Since 1940 bacterial wilt has been found in every alfalfa field over 3 years old examined in the irrigation district of Lethbridge and Brooks, and only recently has it spread northward through Montana into Alberta. Since 1940 bacterial wilt has been found in every alfalfa field over 3 years old examined in the irrigation district of Lethbridge and Brooks, and only recently has it spread northward through Montana into Alberta.

able for only short time rotation. The disease is caused by the bacteria which enter the plant through wounds made by insects, freezing, etc. After entering the plant the bacteria make their way to the water conducting system which is just under the layer of bark. Here they multiply and produce a gummy substance which clogs up the water conducting vessels of the roots and eventually chokes the plant. As the upward flow of the water is hindered or stopped the plants wilt and eventually die.

The most common sign of the disease in the field is wilting foliage. However, many plants do not wilt, but have other symptoms. These may become very small and there may be pronounced mottling or yellowing. The infected plant becomes very stunted and produces numerous small weak branches. Definite indications of the disease are found in the roots. When the bark is peeled back the roots should be creamy white. Infected plants have brown patches. Placed in water the disease thrives under moist conditions and is readily spread by irrigation water. It is also carried by machinery. As a result of the disease the life of many stands has been greatly shortened particularly in the Brooks district. Many fields in the Lethbridge district have been so severely damaged that they are ploughed up and others are rapidly becoming unproductive. Unfortunately the most common variety, Grimm, is very susceptible and where the disease is prevalent the variety is suitable for only short time rotation.

STATEMENT BY THE HON. HUMPHREY MITCHELL, M.P., MINISTER OF LABOUR

"With the acceptance of terms of surrender by the Japanese, the world's greatest and most devastating war has ended after nearly six years of struggle between the forces of freedom and oppression."

"Canadian sailors, soldiers and air men in common with the fighting forces, of the United Nations, have played a proud and noble part in the vanquishing of our enemies. To them we pay well-deserved tribute."

"In doing so we must not forget the magnificent contribution of our working men and women at home. In the war plants, on our farms, our railway systems, mines, forests and every other sphere of activity, in which production was vital to the war effort, they all did grand jobs."

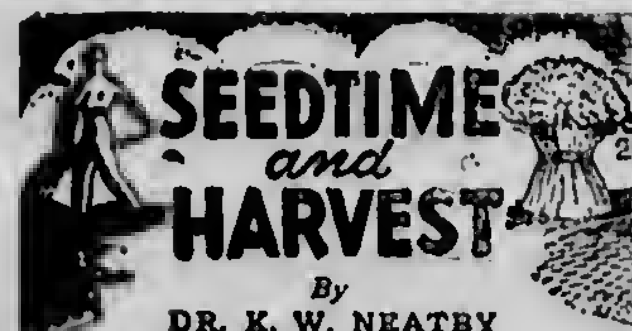

"Our workers generally have exemplified a high degree of patriotism in the ready and uncomplaining way they accepted the necessary controls and discipline so that there could be full mobilization of the human resources of our country."

"No war took ahead to years of peace. Let us all co-operate to the end that we shall see a speedy return of the basic principles of freedom that in the final analysis underlay our victorious efforts in this war."

S. B. Smith is busy painting the Mill Alfred home.

Paul H. Redd has been elected as Wheat Pool Director for this sub-district in elections recently held by the Alberta Wheat Pools.

Shirley King who has been with the fingerprint Department of the Canadian Army, is home now after getting his discharge and is at work in the Garage.

24-D

The importance of DDT in controlling insects is well known to most farmers. At least, it soon will be, since limited quantities are now or are about to be available for use in stables, dairies, etc. If preliminary experiments are confirmed, 2,4-D, or if the reader disdains nicknames, 2,4 dichlorophenoxyacetic acid, will be equally important in weed control. It will destroy a wide variety of annual and perennial weeds, but appears to be harmless to grasses. Extensive experiments by Provincial and Dominion Departments of Agriculture are in progress and we await the results with interest.

Farm Granaries Again

At this season, with most granaries empty, farmers may do much to prevent later losses from heating and infestation of farm-stored grain. Empty granaries should be thoroughly cleaned. Brush down walls and sweep floor with damp sawdust; then sprinkle a little hydrated lime over the floor and sweep it about to fill all cracks. Repair leaky roofs, walls, and especially floors. Where floors, either wooden or concrete, rest directly on the ground, a covering of moisture-proof paper over the floor and extending up the walls for a foot or so will help to exclude ground moisture. Provide for good ventilation over the surface of the grain. A little effort now may save a lot of trouble later.

What Has Rome Got to Do With Horses?

JUST THIS: ROME wasn't built in a day and neither can the Horse Co-Operative Marketing Ass'n Ltd. take all of your horses in one day. There are over a quarter of a million surplus horses in Alberta and Saskatchewan alone, and it is only possible to process a mere fraction of that number each day.

BUT You can get a priority on shipment by becoming a Co-op member and listing your surplus horses. This entails buying a dollar share for each horse to be listed. In this way you will have a priority in your district on a quota basis. You will also be backing up your Co-op and enable them to pay off the Government loan that was granted in order to begin operations as quickly as possible, and thereby give the producers control of their own organization. This dollar, payable for an advance listing of your horses, is not a fee but gives you a share in the business. This is a Producers Co-op. You as a producer must get behind it to make it a success.

WARNING: Do not send horses in to the plant unless you have been properly instructed to do so. The Co-op assumes no responsibility for the handling of horses where proper shipping instructions have not been followed. Further information will appear in your weekly newspaper or can be obtained through your Agricultural Representative.

Please send listings and further enquiries to Swift Current, Sask.

Horse Co-Operative Marketing Ass'n Ltd.

MARKET FOR SURPLUS HORSES

There is a demand for all by-products such as horsehides, horse hair, and horse manure. These products have a high market value and will assure a good return to the horse owner. They were concerned with the horses being marketed for slaughter conservation of the grazing lands at Swift Current or Edmonton will and feed reserves of the country. be paid for on the basis of fleshy surplus horses were ruining the condition. An initial payment will pasture reserves and were a liability two cent per lb. live weight for it to the livestock. Today this is a horse in good fleshy condition, with ability is being turned into an asset. further payments in the form of pay A contract for 10,020 tons of horse manure dividends. Horses in medium meat, both canned and pickled has or poor flesh will receive a lower been obtained from the Belgian initial payment. The basis of live Government by the Horse Co-operative will be determined on the live Marketing Association. Two meat recovery from three hundred cessing plants are being established; horses to be put through one of the one at Edmonton to serve Northern plants.

Alberta and Northern Saskatchewan. The Co-operative is capitalized at and the other at Swift Current to \$500,000.00 with shares at \$1.00 per share. Southern Alberta and Saskatchewan. The Provincial Government chews. They will be in operation of Saskatchewan guaranteed \$50,000. before October 1 and the contract to the Bank to enable the Co-operative will involve the movement of over operative to commence operations. A 100,000 horses before January, 1947, further guarantee from the Saskatchewan Government, of \$2.00 for stock industry more than any other every \$1.00 raised by members will single factor in the two Provinces. enable the Co-operative to raise its selves and the non-profit motive objective of \$100,000.00. Horse owners who have given their time and energy to this project. A liability of and loan capital, with monies loaned long standing is being turned into guaranteed 4 per cent interest. As horses an asset and over five million dollars are delivered to the plant, further are will be returned to the farmers deduction of \$3.00 per horse is made and ranchers of Alberta and Saskatchewan for loan capital. Each horse entitles chowan. It is a Co-operative movement the owner to a share in the Co-operative on the part of producers themselves. Identification of horses must selves and the non-profit motive he maintained so the producer will prevail. Only those who ship horses receive the benefit of patronage through the plants will participate dividends. Horses shipped to the plants are of course slaughtered and the meat is sold to the public.

The contract for 10,000 tons of all freight charges over 25 cents per horse meat to Belgium will involve cost absorbed by the Co-operative processing of 100,000 horses live. These horses will be taken from all Horse owners are also asked to areas of the two provinces and an list their horses immediately so effort will be made to take as many quota deliveries can be given to horses as possible from the drought districts in the two Provinces. Those areas in Alberta and Saskatchewan paying their \$1.00 share per horse in as plants begin operations this fall advance are given a priority in delivery to relieve the serious feed situation.

PUBLIC NOTICE

Re Waterworks By-law

Following is a synopsis of By-law Number 446 of the Town which has been given First Reading by the Town Council and which will be finally passed within five weeks after the assent of the Proprietary Electors of the Town of Raymond. The By-law provides:

- (1) That George E. Court be appointed Returning Officer to take the vote of the Proprietary Electors on the said By-law, the vote shall be taken Monday, August 27th at the Town Hall, Raymond between the hours of 10 o'clock a.m. and 7 o'clock p.m. and the result shall be declared the following day.
- (2) The Council is empowered to enter into contracts for the construction of a waterworks pumping and filtration plant, water mains and reservoirs and renewing a part of the existing water mains in the Town, involving a possible cost of \$100,000.00.
- (3) The Council is authorized to borrow the sum of \$100,000.00 for the said works by debentures in the sum of \$100,000.00 in amounts not less than \$100.00 with interest at 4 per cent payable in 30 equal annual instalments of \$5,783.00 each. The annual payments to be obtained from the net profits of the water system.
- (4) The indebtedness is contracted on the credit and security of the Town at large.
- (5) The By-law is to take effect after the date of the final passing. Read a first time the 31st day of July, 1945.

Signed "Wm. Jensen, Mayor.

W. L. Jones, Sec. Treas.

Certificate of Returning Officer

I, GEORGE E. COURT, of Raymond, Alberta, certify that the foregoing is a true synopsis of the proposed By-law 446 of the Town of Raymond which has been given first reading by the Council and will be finally passed by the Council within five weeks from the assent of the proprietary electors.

And Take Notice that MONDAY, AUGUST 27th, at the TOWN HALL, Raymond, is the date and place for voting on the said By-law.

And further take notice that the Polls will be open on that day between the hours of 10 A.M. and 7 P.M.

GEO. E. COURT,
Returning Officer.

Championship Victory Garden Helps Feed Family of 18

NEAR-PERFECT SCORE: The 200 by 50 foot plot (above), which has been adjudged the best victory garden on the Island of Montreal this year, helps feed the eight grown children and eight grand-children of Joseph Totta (inset), section foreman for the Canadian Pacific Railway at Montreal West. Totta works an hour before going on duty at 7 a.m. and three hours after quitting time at 4 p.m. in growing 22 different vegetables, many of which Mrs. Totta canned or put down, as her share in supplementing the commercially grown vegetable supply needed to alleviate the food shortage in Europe. Judges for The Montreal Star contest which Totta won, called his garden "without doubt the finest vegetable garden ever entered in the competition" and gave him 28 out of a possible 30 points for quality. They looked in vain for weeds and pests and particularly remarked on his four-inch-deep cultivation, a valuable aid to moisture conservation.

SCHOOLS OF NURSING STILL HAVE VACANCIES

"Although the response of Canadian students to enter nursing training has been a very splendid one, there are still hospital schools of nursing in Alberta with vacancies in their classes," states Miss B. A. Beattie, President of the Alberta Association of Registered Nurses.

There is still, and will be for several years, a need for more nurses in Canada to cover the expanding

health programmes, and the care for war veterans and civilian population, acute appendicitis at the Hospital on Students entering schools of nursing Thursday.

now will be preparing themselves for useful, broadening careers, while at the same time helping to relieve the present nurse shortage. There will continue to be plenty of interesting, worthwhile positions for worthwhile nurses who have good training.

Particulars of information containing the names of schools of nursing in Alberta can be obtained from the Alberta Association of Registered Nurses, St. Stephen's College, Edmonton, Alberta.

Line Elevators Farm Service
Winnipeg, Manitoba

Regent Wheat

According to the wheat variety survey conducted by Line Elevator Farm Service and, also, by the Manitoba Department of Agriculture, Regent is now the leading variety of wheat in Manitoba. This represents a very remarkable triumph for Canadian plant breeders, and for Dr. C. H. Goulden in particular.

The public is apt to delay its admiration of outstanding achievements until the hero retires or dies! Dr. Goulden cannot retire before old age because he, we believe, depends upon a civil service called salary. He is young enough to justify our hopes that he may live to improve upon Regent.

It is well to remember that Thatcher, still the leading variety in Saskatchewan, is a very good wheat. Its success was assured from the beginning. Surely, therefore, it is all the more credit to Dr. Goulden and his staff that Regent should now stand first in Manitoba. It has stood the test on Manitoba farms. The individual characteristics of the variety need not concern us here.

Farmers will do well to remember that crop plants that really succeed do not just happen. They result from carefully planned and controlled breeding experiments that aim to combine the maximum number of desirable characteristics in one or more varieties.

It is also fitting at this time to acknowledge the debt we owe to Dr. H. K. L. of the University of Minnesota, who not only produced Thatcher wheat, but also many of our leading plant breeders, including Dr. Goulden.

BROWN COUPONS TO BE USED FOR MEAT

Brown "M" coupons in ration books 5, supplemented by specially designed tokens, will be used for meat purchases when Canada returns to meat rationing, probably early in September, the Wartime Prices and Trade Board announces.

Coupons will become valid at the rate of one per week, and a nickel size blue hole in the centre tokens eight to the coupon, will be used as change for purchases valued at less than one coupon.

One coupon will buy from one to three pounds of meat depending on group type, with the following values:

- GROUP A—1 lb. per coupon.
 - GROUP B—1 1/2 lb. per coupon.
 - GROUP C—2 lb. per coupon.
 - GROUP D—2 1/2 lbs. per coupon.
 - GROUP E—3 lbs. per coupon.
- All cooked, canned and fancy meat as well as red meats will be included in the ration, but the following will be exempt from rationing: beef, brain, tail, head, ribs, tripe; calf head, brain, pork, brain, head, tail, pigfoot, spare rib; lamb, brain, head, tail and fries.
